Dear Mr. Snow

MAY 15 1998

I am a concerned citizen writing on behalf of the CalFed task force which is now deciding on the Peripheral Canal. The current alternatives put forth by CalFed are unacceptable. CalFed must keep in mind all of California's future water needs and no just the needs of agribusiness. A fourth alternatives must be created. This choice must include, restoring & protecting water sheds for clean water, making conservation programs & economic incentives which motivate efficient water usage, maximizing water efficiency before considering new dams, reservoirs and canals, lastly, restoring California's fish, birds, wetlands, rivers, deltas and bays.

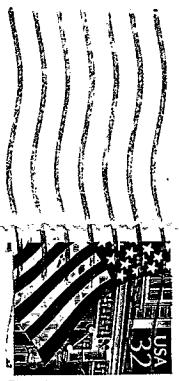

Sincerely,

Reve
